

Call for ISIT & ITW Proposals

IEEE Information Theory Society

International Symposium on Information Theory (ISIT)

- Flagship conference · 700–1000 participants · Late June–Early July
- Requires large-capacity venue and nearby international airport

Information Theory Workshop (ITW)

- Focused event · 150–300 participants
- Typically held in Q4 (occasionally also Q2)

Technical Scope

Shannon theory, coding theory, communication systems, detection and estimation, with strong emphasis on cross-disciplinary research including bioinformatics, machine learning, and artificial intelligence.

Geographical Rotation

Events rotate across North America, Europe & Middle East, and Asia-Pacific & India, with at least one year between consecutive events in the same region.

Upcoming Conferences

Year	ISIT	ITW
2026	Guangzhou, China · Jun 28–Jul 3	Phoenix, USA · Nov 10–13
2027	Sorrento, Italy	Munich, Germany · Apr 5–8
2028	Seoul, South Korea · Jun 25–30	Singapore
2029	Location under consideration	TBD

What Organizers Say

“A fantastic opportunity to deeply integrate into the community.” — Prof. Camilla Hollanti, ISIT 2022

“Exposure to world-class research and renowned researchers.” — Prof. Navin Kashyap, ITW 2022

How to Apply

Contact the Chair of the IEEE Information Theory Society Conference Committee and engage with committee members to prepare and present your proposal at a future Board of Governors meeting.
